Our Festival 2015

The 2015 Festival was a great success! Our church was in need of major facilities maintenance. On addition to getting heat into Founder's Hall, a new Air Conditioning chiller was purchased. The church was relying on one backup chiller as the other was no longer working and had faced several instances of inconsistent cooling last summer which impacted a number of ministry activities including VBS and ECP groups. The new chiller and heat in Founder's Hall were completely funded from last year's Festival.

¡Muchas Gracias!
